

Our customized project example

**Burj Al Arab in Dubai-in
January,2019** 

**Alma Resort Cam
Ranh in Vietnam
-in December,2019**

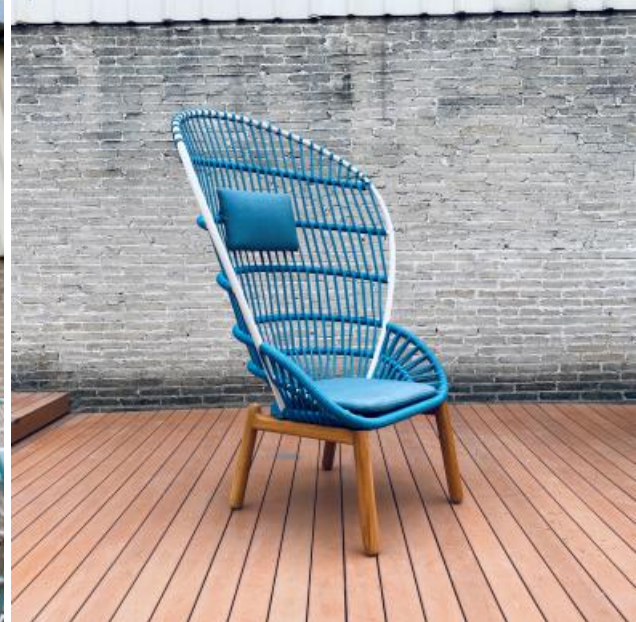

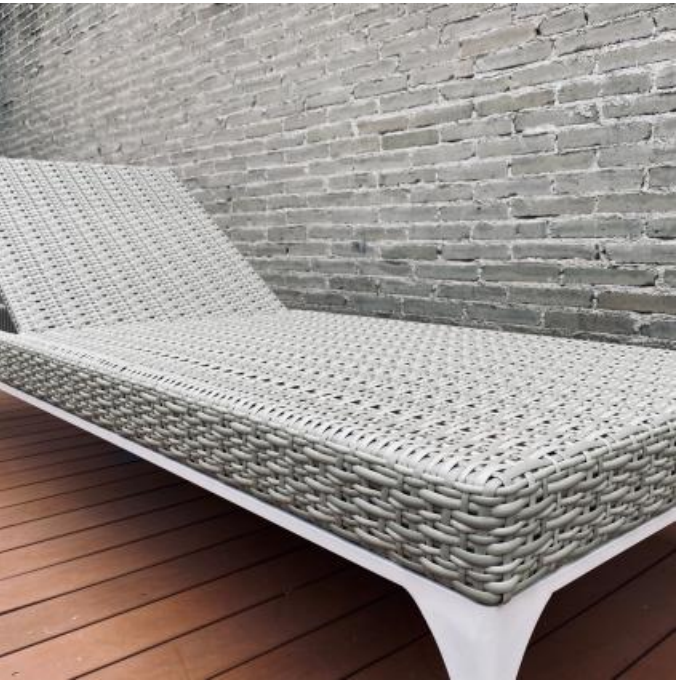

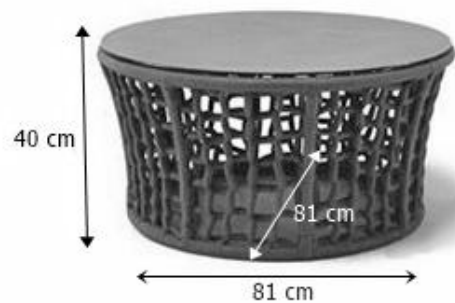

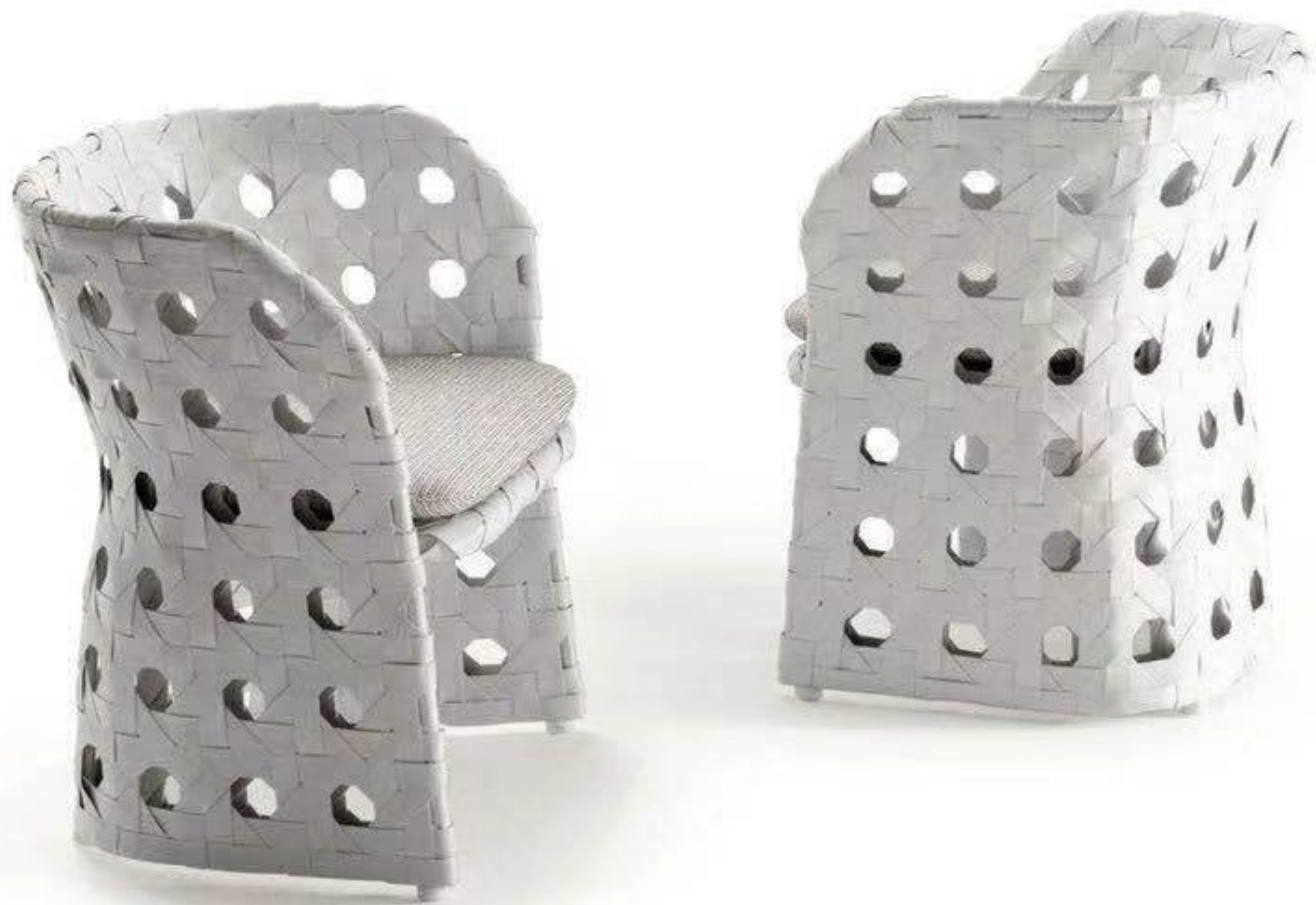

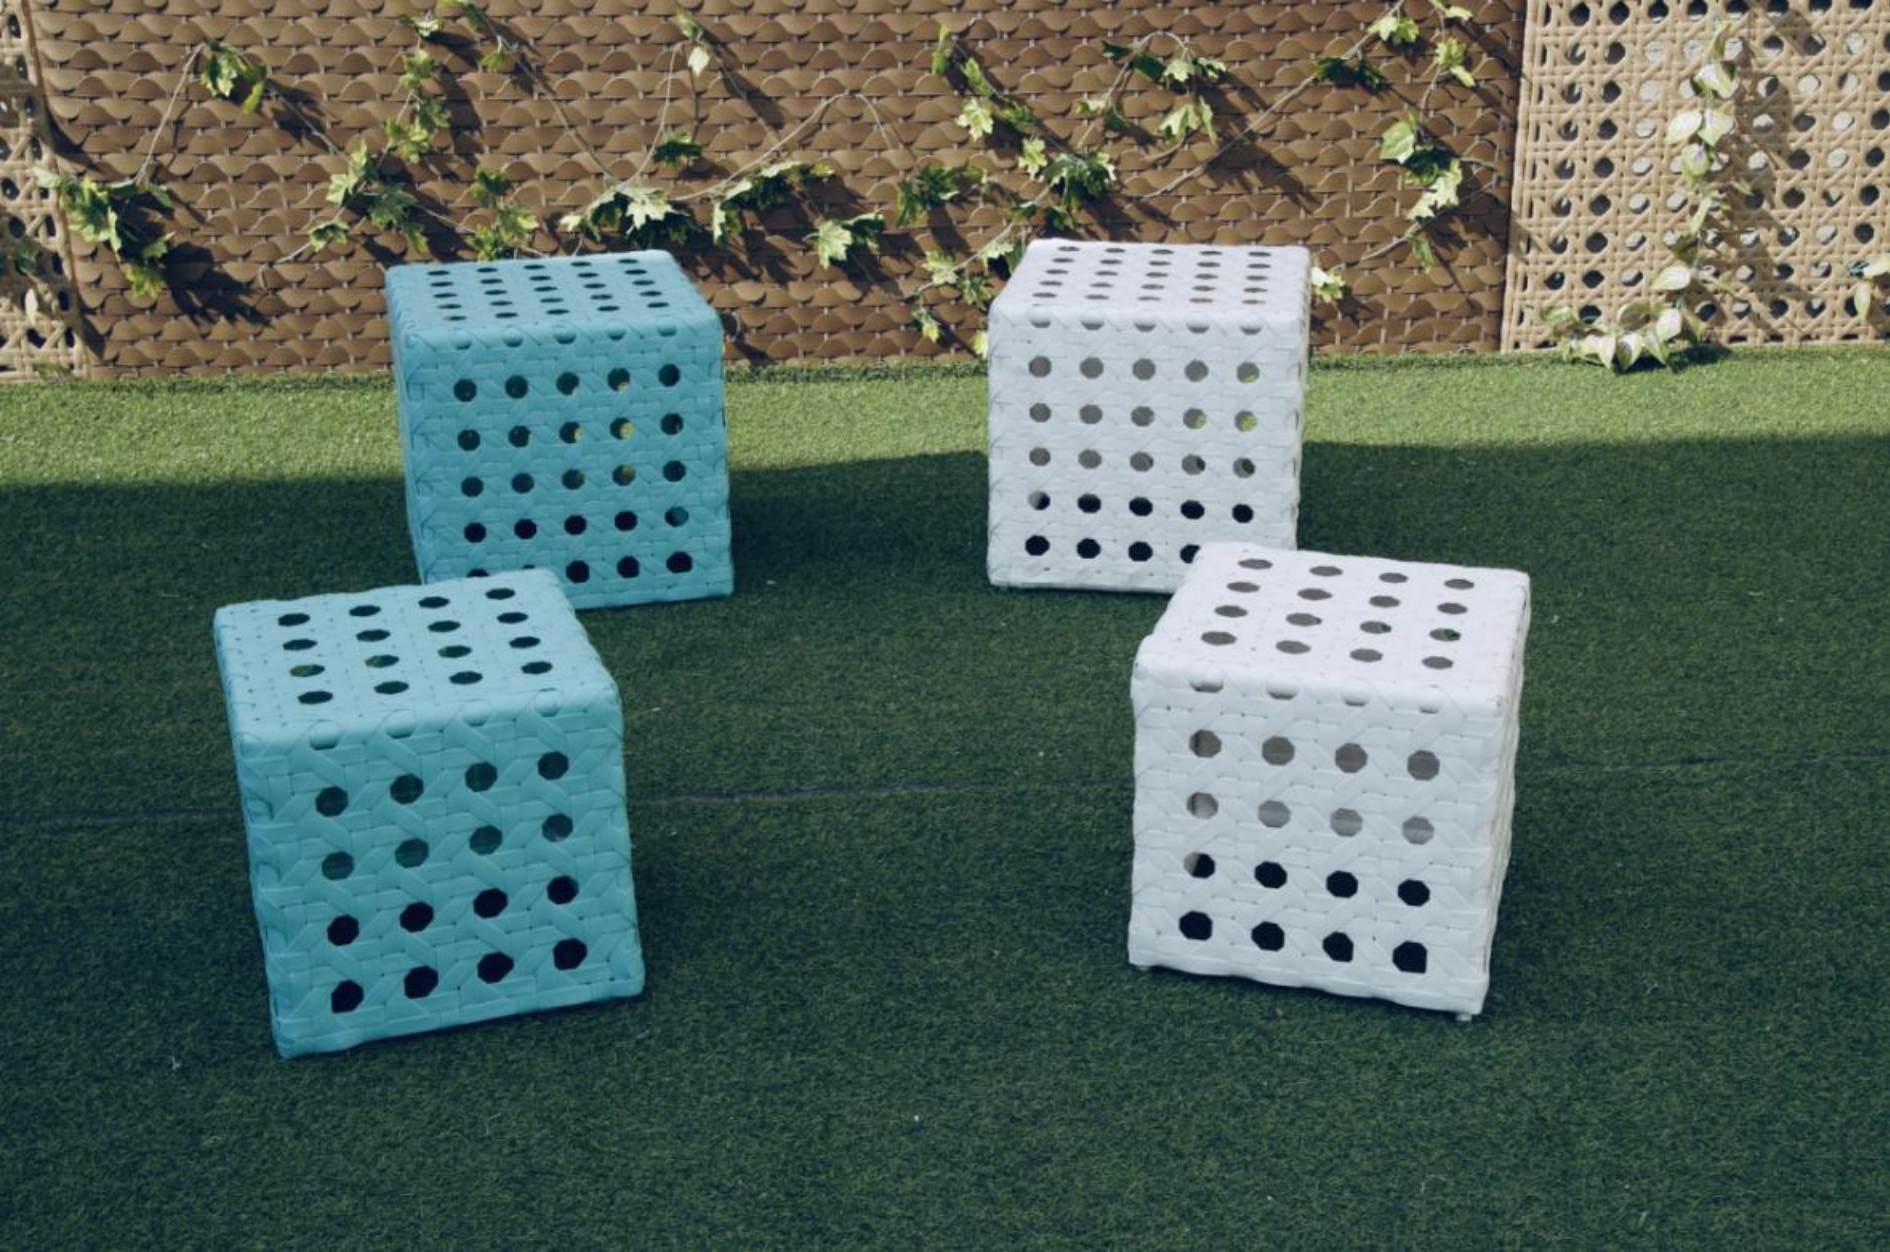

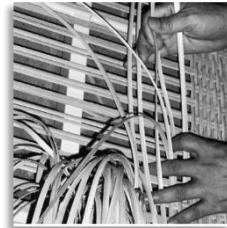

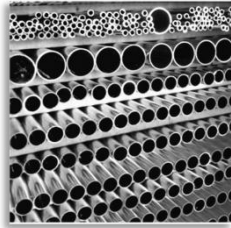

PRODUCTIONPROCESS

MATERIALS

POWDER-COATED ALUMINIUM

Fluidised powder coating applied to the aluminium structure by electrostatic spray. To ensure the solidity and resistance of the powder coating, the whole thing is stoved at a temperature of between 160°C (320°F) and 210°C (410°F), according to the type of powder.

For outdoor and indoor use.

Maintenance: easy to clean with water or specific alu cleaner. Avoid the use of abrasive products and solvents.

WICKER

A synthetic fibre (HDPE), high quality thermoplastic fibre. Dyed in the mass, UV-resistant. Toxin-free, ecological, 100% recyclable. Swimming pool and sea water resistant and repellent.

For outdoor and indoor use.

Maintenance: easy to clean with water or specific wicker cleaner. Avoid the use of abrasive products and solvents and high pressure cleaning.

SUNBRELLA® FABRIC

100% solution dyed acrylic. Dyed in the mass, UV-resistant. Swimming pool and sea water resistant and repellent.

For outdoor and indoor use.

Maintenance: easy to clean by following the washing instructions. Avoid the use of abrasive products and solvents.

TEAK

Superior quality of teak wood (VINIR & HARA) aged 60 to 80 years, sourced from ecological plantations. Great stability under the effect of UV radiation, chlorine and sea water. 100% recyclable.

For outdoor and indoor use.

Maintenance: easy to clean and maintain, various specific treatments possible. Avoid the use of abrasive products and solvents and high pressure cleaning.

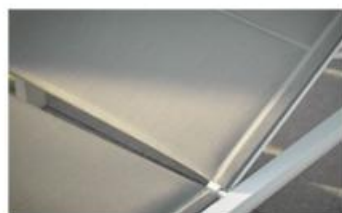

TEXTILENE

Polyester with PVC coating. Dyed in the mass, UV-resistant. Swimming pool and sea water resistant and repellent.

For outdoor and indoor use.

Maintenance: easy to clean with water or specific Textilene cleaner. Avoid the use of abrasive products and solvents and high pressure cleaning.

HPL

HPL = High Pressure Laminate. Flat thermo hardening resin-based sheet, homogeneously reinforced with wood-based fibres and manufactured at high pressure and temperature. The visible side is covered in a decorative surface using the patented EBC technology.

For outdoor and indoor use.

Maintenance: easy to clean with water or specific cleaner. Avoid the use of abrasive products and solvents.
